About Us

With 24 years of experience in the waterproofing and construction industry, including 16 years of hands-on practical expertise, Moufid Sukkar is a leading authority in waterproofing consultancy. His extensive knowledge spans installation, project management, defect resolution, and compliance assessment, making him a trusted expert in delivering innovative, high-quality waterproofing solutions.

As the founder of iComply Consulting Group, Moufid established the company to bridge the gap between industry best practices and real-world application. iComply specialises in waterproofing compliance, defect analysis, thermal imaging, moisture testing, and expert reporting, providing clients with accurate, timely, and actionable insights. Through the use of cutting-edge technology and a commitment to same-day site inspection reporting, iComply sets new standards in efficiency and reliability.

Under Moufid's leadership, iComply Consulting Group partners with builders, developers, engineers, and regulatory bodies including Strata to ensure that waterproofing systems are designed, installed, and maintained to the highest standards. His deep industry experience, combined with a forward-thinking approach, allows iComply to deliver practical, cost-effective, and compliant solutions that enhance building longevity and performance.

With a reputation built on integrity, expertise, and innovation, Moufid Sukkar and iComply Consulting Group continue to lead the way in waterproofing consultancy across various states in Australia including NSW, ACT & VIC.

Vision

At iComply Consulting Group, our vision is to be the leading authority in waterproofing consultancy, recognized for our expertise, innovation, and commitment to excellence. We strive to transform industry standards by integrating cutting-edge technology, proactive risk management, and comprehensive compliance solutions. Our goal is to build a future where every structure is safeguarded against water ingress, ensuring durability, sustainability, and peace of mind for our clients. Through continuous improvement and industry leadership, we aim to redefine best practices and set new benchmarks for waterproofing excellence.

Mission

At iComply Consulting Group, our mission is to set the benchmark for excellence in waterproofing consultancy. We are committed to delivering innovative, compliant, and cost-effective solutions that protect and enhance the integrity of buildings. Through expert guidance, advanced diagnostic technologies, and same-day reporting, we empower our clients with the knowledge and confidence to make informed decisions. Our dedication to quality, compliance, and industry best practices ensures that every project meets the highest waterproofing standards, minimizing risks and maximizing long-term performance.

What We Do

At iComply Consulting Group we are dedicated to providing comprehensive consulting, testing, compliance and reporting solutions that meet the evolving needs of the Australian Construction Industry . Our diverse portfolio covers every aspect of the waterproofing consulting industry, Here's a closer look at our key operations and services we provide:

Building Defect Investigation and Multidisciplinary Coordination

iComply Consulting Group provides coordinated investigation and reporting for building defects involving water ingress, waterproofing failure, drainage-related impacts and building-envelope deterioration.

Our services include:

water ingress and waterproofing defect investigations;
drainage interface and surface-water management observations;
moisture mapping, thermal imaging and non-destructive diagnostic testing;
building defect causation assessment and remedial scope development;
coordination of specialist hydraulic, structural and Building Practitioner input where required;
consolidated briefing reports for strata, builders, insurers, solicitors and dispute-resolution processes.

Innovation

At iComply Consulting Group , our commitment to industry leadership and innovation drives our success and sets us apart in the waterproofing consultancy sector. We continually push the boundaries of technology and operational excellence to deliver superior consulting solutions. Here's how we lead the industry and foster innovation:

Pioneering Technology and Solutions

At iComply Consulting Group, we leverage cutting-edge technology to deliver precise, efficient, and compliant waterproofing solutions. From advanced diagnostics to real-time reporting, our innovative approach enhances accuracy, minimizes risk, and sets new industry standards.

Sustainable Practices and Environmental Stewardship

At iComply Consulting Group, we prioritize eco-friendly materials, efficient methods, and waste reduction to deliver sustainable waterproofing solutions. Our commitment to responsible practices ensures durable, environmentally conscious structures for the future.

Safety and Operational Excellence

At iComply Consulting Group, safety and operational excellence are at the core of everything we do. We prioritize risk mitigation, compliance, and best practices to ensure safe, high-quality waterproofing solutions. Through rigorous assessments, advanced technology, and industry expertise, we deliver reliable, efficient, and compliant services that protect both people and structures.

Strategic Partnerships and Collaborations

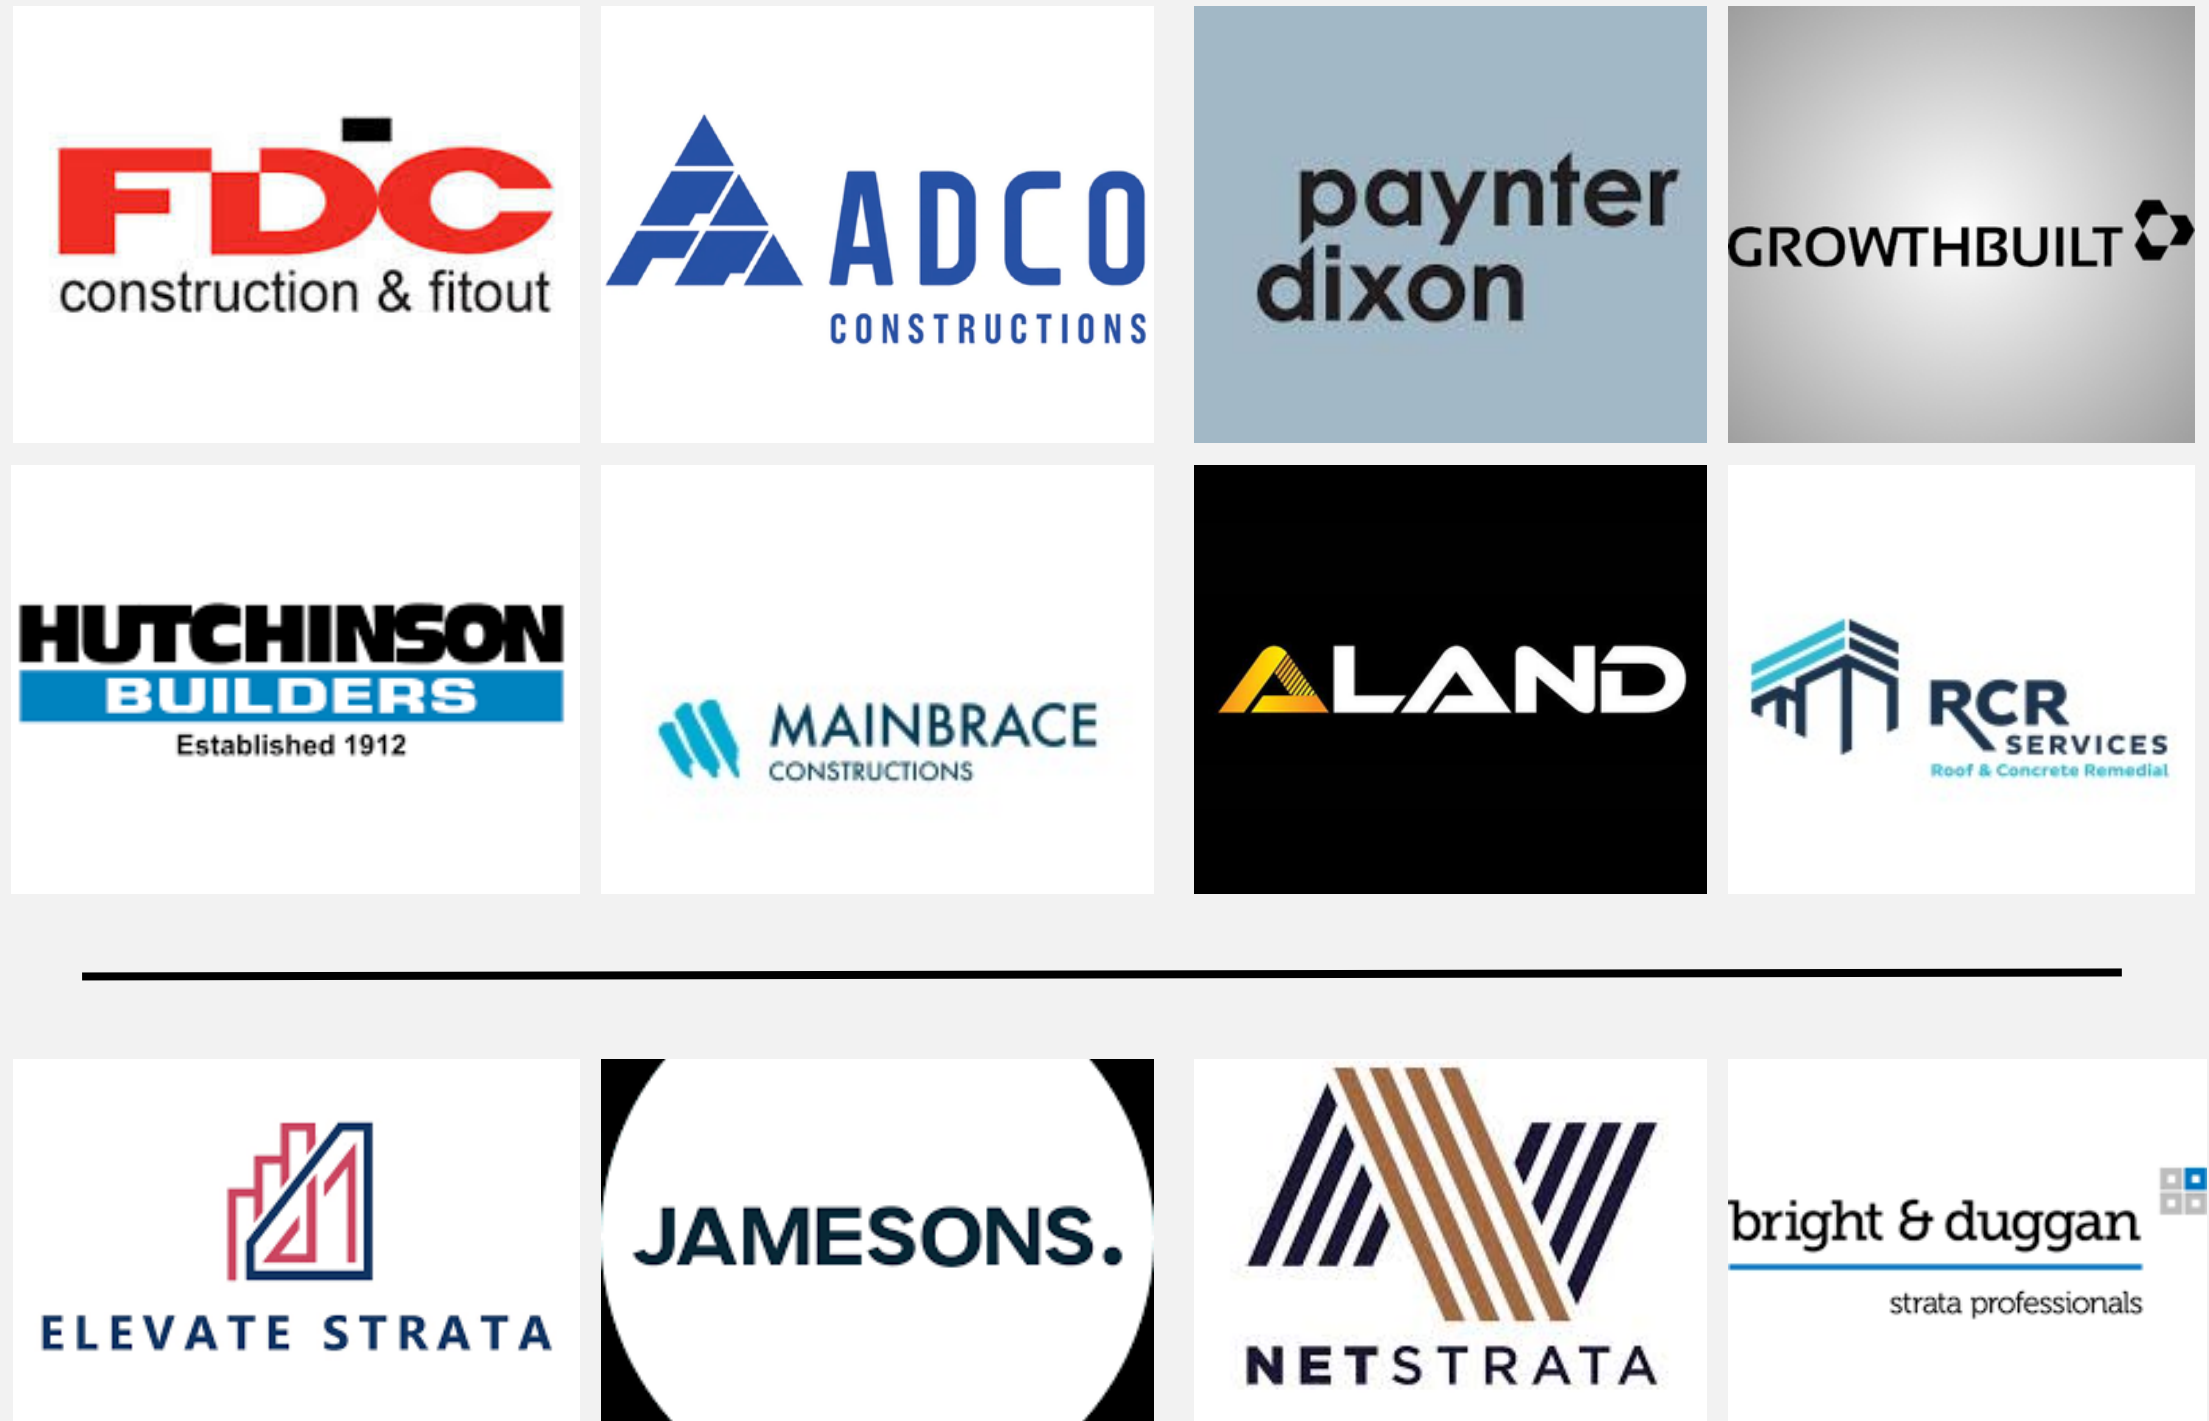

At iComply Consulting Group, we partner with builders, developers, engineers, and industry leaders to ensure the highest waterproofing standards. Through collaboration with product manufacturers and technology providers, we stay at the forefront of innovation, delivering expert solutions that enhance compliance, durability, and long-term asset protection.

Our Clients

At iComply Consulting Group, we take pride in working with a diverse range of clients across the construction, development, and property sectors. Our clients include builders, developers, architects, engineers, and project managers who value quality, innovation, and compliance in waterproofing solutions.

We collaborate closely with industry leaders and organisations, offering tailored consultancy services that address the unique challenges of each project. Our commitment to delivering reliable, cost-effective, and sustainable solutions has earned us the trust of both large-scale commercial enterprises and smaller, specialized firms.

By fostering long-term relationships, we ensure that our clients receive continuous support, expert advice, and cutting-edge technology to achieve the best possible outcomes for their projects.

Projects Completed

At iComply Consulting Group, we have successfully delivered waterproofing consultancy, compliance assessments, and defect resolutions across a diverse range of projects, covering various building classifications in the construction industry. Our extensive experience includes:

- Class 2 – Residential Apartments
 - High-rise and mid-rise multi-residential developments
 - Waterproofing defect inspections and compliance assessments
 - Balcony, rooftop, and basement waterproofing solutions
- Class 5 – Commercial Buildings & Offices
 - Waterproofing system design and compliance verification
 - Thermal imaging and moisture testing for leak detection
 - Rooftop and below-grade waterproofing solutions
- Class 6 – Retail & Shopping Centres
 - Waterproofing audits and defect rectification for commercial complexes
 - Car park membrane system design and assessment
 - Expansion joint waterproofing and compliance reporting
- Class 9 – Public & Institutional Buildings
 - Hospitals, schools, and government buildings
 - Compliance audits and waterproofing integrity testing
 - Long-term asset protection strategies for public infrastructure

For all the projects completed -->, iComply Consulting Group conducted a comprehensive waterproofing compliance assessment, including, defect analysis, and new and remedial recommendations including project specific scope of works, application methodologies and progressive application reporting and monitoring. Our expertise ensured the integrity of critical waterproofing systems, mitigating risks and enhancing long-term performance..
